ICS LAB:-Movie Review:- Merry Christmas

Merry Christmas, an on edge suspense thriller by Shriram Raghavan delivers a breath taking murder mystery on the occasion of Christmas eve. The film ~~started~~^{is} by Katrina Kaif and Vijay Sethupathi was set in the days when Mumbai was popularly known as Bombay.

Albert (Vijay), an architect, who also returned to his home after seven years is still mourning after his mother's death. To get over that pain he decided to get out and enjoy the night. He finds Maria (Katrina) alone with her litter daughter lost too and came out to chill and enjoy the Christmas night. A chain of events happen which make the two strangers familiar with each other. After some time Albert decides to drop Maria home.

A story filled with uncertainty and a steady pace makes everything connectable. Adding some flavours to the story was the acting of both the leads making it fully fletched crime thriller.
