JAM SESSION

Topic :- Cricket

Good Afternoon everyone. I'm Abdul Basith Khan from AIML 1st-Year. I! will be talking about Cricket. Cricket is a bat and ball game played between two teams each consists of eleven players on a field. When ten batters have been dismissed, the innings ends. it is divided by two innings, later the next innings begins

Currently the Cricket World cup is going on in India in which ten teams played and only top four will qualify to play semi finals. Later who wins will play Final and will be world Champions. So I conclude my speech about Cricket which I have delivered to you all.
